Re: George W. Drexler, RCRA Docket X-83-04-01-3008, RCRA Docket X-83-04-02-3008

Gentlemen:

Mr. Drexler has requested that we respond on his personal behalf in the above referenced matters, he being unable at the present time, to do so himself. If necessary, a Power of Attorney will be provided.

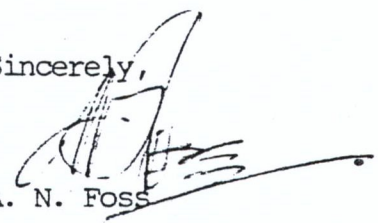

As you are obviously aware, Mr. Drexler is incarcerated at Ft. Worth, Texas.

Mr. Drexler has been retired for some time and categorically denies any and all violations, either real or imagined, of any law old or new and presumed retroactive, and any and all fines, penalties, etc. in connection therewith. Mr. Drexler has never owned, leased, nor operated either of these facilities.

To facilitate the determination of the future course of action, we will need the following information; 1) the exact date and time that these two facilities were inspected, 2) the exact date and time samples were removed, 3) the manner, type, and amount of samples taken, 4) names of the individuals and agency for which they work, making the inspections and of those taking the samples, 5) copies of all reports prepared by the individuals making the inspections and of those acquiring the samples, 6) copies of the independent laboratory reports of the analysis performed on the samples taken, 7) copies of any correspondence, applications, plans, etc., submitted by Mr. Drexler to any Environmental Agency, either State or Federal, 8) copies of all interoffice memos or correspondence from or by any individual regarding this matter and Mr. Drexler, to or from any Environmental Agency either Federal or State, 9) the name of the individuals having either accused or brought Mr. Drexler to the attention of the U.S. Environmental Protection Agency.

I will next be in my office on August 16, 1983. At that time I will hopefully review all the matter requested and will contact you shortly thereafter.

Sincerely,

A. N. Foss
